JUNIOR FULL-STACK DEVELOPER (JAVA SPRING BOOT + REACT)

Junior Full-Stack Developer with hands-on experience building and deploying full-stack applications using Java Spring Boot and React. Experienced in developing REST APIs, authentication systems, and database-driven applications within an Agile team environment. Contributed to multiple applications used by real users, with a focus on performance, usability, and scalable design.

TECHNICAL SKILLS

Core: Java, Spring Boot, React, REST APIs

Frontend: React, Next.js, TypeScript, HTML, CSS, Tailwind

Backend: Spring Boot, Node.js, Express.js

Databases: PostgreSQL, MongoDB, MySQL

Tools: Git, Docker, Vercel, Render, Railway, Netlify

Practices: Agile (Scrum), Debugging, API Integration

PROJECTS

Blog Platform (Spring Boot + React TypeScript)

- Built a full-stack blogging platform with JWT authentication and role-based access control
- Implemented draft/publish workflows, tagging system, and rich text editing
- Designed REST APIs with Spring Boot and JPA for PostgreSQL database integration
- Deployed frontend and backend services independently on cloud platforms
- Real-Time Chat Application (MERN + Socket.io)
- Developed a real-time messaging system using WebSockets for instant communication
- Implemented JWT authentication and secure session handling
- Enabled live message updates without page reloads using Socket.io
- Tested with multiple concurrent users to validate real-time performance

Stockly - Inventory Management System (React + Node.js)

- Built a full-stack inventory system supporting multi-user product and stock management
- Designed RESTful APIs with Express and PostgreSQL for structured data handling
- Implemented rate limiting and basic bot protection to improve backend security
- Managed application state using Zustand for efficient UI performance

EXPERIENCE

Full-Stack Developer Intern

Compuways - Gauteng, South Africa | Jul 2024 – Aug 2025

- Contributed to multiple full-stack applications within an 8-person Agile development team
- Implemented core features including authentication systems, dashboards, and REST APIs
- Built and integrated frontend interfaces with backend services using React and Spring Boot
- Supported applications used by approximately 10+ users, ensuring functionality and usability
- Debugged and resolved application issues, improving system stability and performance
- Participated in daily stand-ups, sprint planning, and collaborative code reviews

Cold Calling & Lead Generation Trainee

Techcelerate Aug 2025 - Sep 2025

- Managed leads using CRM systems and conducted outbound calls
- Strengthened communication and client engagement skills

Crew Member

McDonald's Apr 2023 - Dec 2023

- Delivered customer service in a fast-paced environment
- Maintained accuracy in transactions and order handling

Private Tutor

Self-Employed Mar 2022 - Sep 2022

- Tutored Grade 9–12 students in Mathematics, CAT, and English
- Explained foundational computing and problem-solving concepts

EDUCATION

Full Stack Java Web Development Bootcamp – Code College

Focus: Java, Spring Boot, REST APIs, React, SQL, full-stack application development

FNB App Academy

Focus: HTML, CSS, JavaScript, Node.js, Python, Django

Matric - Nigel Secondary School
